LOOKING TO THE FUTURE IN WOOLLOOWIN

With work on the Woolloowin access shaft well underway and the site scheduled to be reinstated by March 2012, now is the time to start thinking about the future use of the site.

Thiess John Holland has committed \$3 million to fund an Urban Mitigation and Community Development Project for Woolloowin on completion of the Airport Link project.

This newsletter is designed to gain your views on how you would like to see the 2,800m² site used. On 22 June 2009 the Minister for Infrastructure and Planning and the Minister for Transport and Main Roads announced, that at the end of construction the land would be handed to the community as a green space for use as a park or other recreational facility.

Currently the land is owned by the Department of Transport and Main Roads for a planned arterial road, however the Airport Link project removes the need for a surface road through the area.

Options to be considered by the community can include a community park or recreational facility. This process is not limited to the site; we would also like you to consider options such as the extension of bikeways, amenity improvements to the local area, additional footpaths in Woolloowin or urban design enhancements at or near the Eagle Junction station shopping facilities.

Your feedback is a vital part of the Urban Mitigation and Community Development Plan which CNI must submit to the Coordinator General in October 2010.

If you have visual ideas about how this site should look, please draw your thoughts in the space provided below.

Rose Street

Kent Street

Park Road

WHAT GREEN SPACE WOULD YOU LIKE TO SEE IN WOOLLOOWIN?

This is your neighbourhood. We want to work with you and others in your local community to find out what green space you think is needed.

Feedback from the Woolloowin Community Liaison Group, set up as part of the conditions for the Woolloowin worksite, suggests that residents would like green space and amenity improvements that provide connectivity between Melrose Park and Kedron Brook. This may include cycle ways, way finding facilities and historical reference points.

Have your say and let us know what kind of green space you would like to see on the site on the corner of Rose and Kent Streets.

RESIDENT SURVEY

You now have an opportunity to decide on what type of use you would like to put the site to. Options you might like to consider include a passive green space like a native or sculpture garden with a path and shady places to sit, or active space such as a children's playground or dog park.

Please return your survey using the reply paid address by 21 June 2010. *You do not need to answer all questions.*

ABOUT YOU

1. How long have you lived in the area?

2. What street do you live in? *(Optional)*

3. What is your age?

- 15-25 yrs 26-35 yrs
 36-45 yrs 46-55 yrs
 56-65 yrs 66-75 yrs
 75 yrs and over

4. What type of household do you live in?

- Single person
 Couple
 Share household
 Family household

ABOUT YOUR COMMUNITY

5. What do you like about living in the Woolloowin area? *(tick all that apply)*

- Nice neighbourhood
 Good place to raise a family
 Strong sense of connection with community
 Good retail facilities
 Good sporting facilities
 Affordable housing
 Access to cultural facilities
 Meeting places for families
 Meeting places for the community
 Meeting places for young people
 Parks and playgrounds
 Proximity to Brisbane CBD
 Other *(please specify)*

6. What kind of green space/recreational facilities would you like to see on the corner of Rose Street once construction is complete?

7. What amenities would you like the new space to have?

1.

2.

3.

8. Do you want the space to be an active community meeting place or a quiet space?

- Active space
 Quiet space
 Combination of the two

Why/ Why not?

9. Do you want this space to be a 'destination' for people all over Brisbane or would you like it to be for locals *(for example a space residents are likely to walk to)?*

- Destination
 Local space for residents

Why/ Why not?

10. Some of the additional amenities suggested for the local surrounds include the following. Please number according to your preferences *(1 being your highest priority)*.

- Installation of marked bike lanes along Rose Street and Junction Road.
 Early establishment of a cycle way within the local area consistent with existing Brisbane City Council and Department of Transport and Main Roads plans.

Amenity improvements to the local area, such as signage, pedestrian lighting, plantings and pavement improvements along the local streets.

Additional (or improved) footpaths in Woolloowin along Rose Street and Junction Road.

Urban design enhancements at or near the Eagle Junction station shopping facilities.

None of the above. You would like the urban mitigation plan to focus on the Rose Street site exclusively.

11. Do you have any other comments? *(You may attach additional pages if required).*

STAYING IN TOUCH

12. Would you like to be kept up to date on this planning process? Yes No

If yes, please provide full contact details:

WHAT'S NEXT.....

In coming months, we will be compiling your responses and developing preferred options for the Woolloowin worksite. This will include having artist impressions of the most popular ideas for the Rose St site. Further information on community feedback and suggested options will be provided in a second newsletter.

A full outline of the consultation process is provided on our website www.citynorthinfrastructure.com.au.

HOW CAN I HAVE MY SAY?

Ways you can get involved:

1. Take part in this survey. Fill out the brief survey. Once complete, you can post the reply paid form back to us. An online version of the survey is also available on our website (www.citynorthinfrastructure.com.au).

2. Come along to our community open day in August 2010. Information about the open day will be advertised and put in your letterbox in coming months.

3. Let CNI, your Community Liaison Group member or Local Elected Representative know what you would or wouldn't like to see included.
